

## **Elena Rousseau Kazmier**

My name is Elena. I am an abstract visual artist and a poet. Whether working with words or in mixed media and buon fresco, I am preoccupied with beauty and the diverse range of its manifestations, particularly in texture, movement, color, the passage of time, symbolism, and transfiguration. The integration of such dualities as ancient/modern, permanent/transient, animal/spiritual, singular/multiple as visual and philosophical means for exploring the sanctity of our shared human experience are the currents that carry my work.
