

Carl Zitzmann Rappahannock Art Tour 2026

Image title: Rappahannock Flag

Medium: Photograph (Archival Inkjet Print) Dimensions: 16"x20"

Description: An Autumn sunset reflected in the window of an F.T Valley farmhouse harmonizes with the clapboard siding providing the stripes to make a symbolic "flag" representing Rappahannock County.

Statement:

An adherent of the artistic approach entitled Contemplative Photography, I roam my environment, camera at hand, staying acutely sensitive to subtle events of synchronicity within the elements of our physical environment, events where *things just align...* fall into place. When I see such a photograph, one that calls out to be created, I engage the technical skills accrued over the past 54 years and do my very best to capture that magic moment I perceive. From that point on, my duty is to convert the witnessed alignment into a physical manifestation I can share with the human family.
