

Tina Falkenbury

Tina Falkenbury is a multifaceted creative artist who expresses her vision through a variety of mediums, including photography, collage, painting, graphic design, acting, and audio book narration.

Her visual art ranges from abstract mixed-media compositions to stylized, framed photographs of recognizable landscapes. More recently, Tina has been incorporating her own photography into both digital collages and mixed-media paintings, exploring a variety of techniques, textures, and materials.

Her process often begins with one of her original photographs, which she applies to a board and builds upon with layers of acrylic paint, texture, collage, and other mixed-media elements. The resulting works move beyond the original image, creating layered interpretations that evoke a distinctive sense of time and place inspired by the destinations she has visited.
